Objectives

I am a results-driven, organized, and adaptable professional with practical experience and a strong commitment to contributing to the success of the team I join. I excel in analyzing information, identifying areas for improvement, and implementing solutions in a structured and proactive manner. My ability to follow direction, combined with a focus on building strong relationships and adapting quickly to new environments, allows me to seamlessly integrate into dynamic work settings. I am eager to bring my skills and dedication to a company that values teamwork and personal growth, where I can make a meaningful contribution.

Experience

Freelancer

Chicago, IL
October 2022 - May 2024

During this period, I was engaged in various freelance coding tasks alongside a full-time position. While there were no major projects, I made periodic adjustments to code, corrected errors, and actively completed courses to enhance my skills.

- Corrected code errors to ensure functionality and improve performance.
- Made periodic adjustments and modifications to existing code as required.
- Completed professional development courses to advance technical skills and stay updated with industry standards.

Front-end Developer

KSV Sp z o.o., Warsaw, Poland
November 2019 – March 2022

- Developed and implemented user-friendly web interfaces to enhance user experience.
- Collaborated with designers and backend developers to integrate UI/UX elements seamlessly.
- Optimized web applications for maximum speed and scalability.
- Debugged and resolved front-end issues to ensure smooth operation.
- Maintained and updated codebase to support new features and improvements.

Junior Front-end Developer

ELDER, Warsaw, Poland
December 2017 – November 2019

- Assisted in developing and maintaining web applications with a focus on responsive design.
- Implemented basic front-end functionalities under the guidance of senior developers.
- Participated in code reviews and contributed to improving code quality.
- Collaborated with cross-functional teams to ensure alignment on project goals.
- Conducted testing and debugging to identify and fix minor issues in the codebase.

- Data Entry and Management

Self-Appraisal

I consistently met or exceeded my performance goals for the year, contributed to several key projects that helped the team achieve its objectives. I used this feedback to make improvements in areas such as communication, teamwork, and time management. I possess strong decision-making skills, unyielding dedication to my principles even in the face of opposition, and the ability to make clear and decisive choices during critical situations. As a reliable individual, I excel in effective time management and continuously strive to enhance my work habits. I work on improving my performance.

My commitment, honesty, and faithfulness are reflected in my interactions with both me and others. I have consistently met all deadlines, which demonstrates my effective scheduling and prioritization. I love my job and value performing well every day. I used my networking skills to build trust and credibility and advance our team's objectives. I believe my professional skills and fast learning will be a great addiction to your team. I look forward to discussing my qualifications for the position in further detail, about your development plans, and hope that an interview might allow me to expand on how my skills could contribute.
